VETERAN EMS CONSULTING LLC

EXPERIENCE. PREPAREDNESS. PROTECTION.

CAPABILITIES STATEMENT

Frontline experience. Strategic solutions.

Practical medical-readiness systems, professional education, and operational risk reduction for organizations that take preparedness seriously.

CORE CAPABILITIES

CPR, AED & First Aid Training	Instructor-led programs built around real workplaces, schools, athletic programs, events, and operational demands.
Medical Readiness Assessments	Facility readiness reviews, AED program evaluation, supply and response-system checks, and prioritized improvement plans.
Emergency Action & Response Planning	Practical medical emergency action plans - distinct from Employee Assistance Programs - with clear staff roles, communication steps, and EMS coordination.
Workforce & Event Readiness	Preparedness training and response planning for security teams, venues, construction operations, property managers, and public-facing organizations.
EMS Education & Consulting	BLS, ACLS, EMS continuing education, documentation improvement, QA/QI support, and operational consulting.
Executive Travel Medical Readiness	Pre-trip medical intelligence, hospital and resource mapping, evacuation contingencies, and coordination through appropriately licensed partners.

PREPARE BEFORE THE MOMENT BECOMES AN EMERGENCY.

Schedule a confidential consultation to identify the right starting point for your organization.

Clinical services, when required, are coordinated through appropriately licensed partners. Not an emergency response or ambulance service.
